- Transfer IN OUT APT/HTL/APT
- Regular excursions with guide Spanish English
- Entrance fees to national parks
- Bilingual English Spanish Guide

Day 1 - Arrival to Puerto Iguazu

Transfer to Domestic Airport (Buenos Aires). Reception and transfer from Iguazú Airport the hotel.

Day 2 - Iguazu Falls: Argentina & Big Adventure

Iguazu Falls: Argentina

We will do one of the most interesting excursions through the hanging bridges, which will lead us to visit the stunning Falls from the Argentine side. Then we will get to the Devil's Gorge and be dazzled by its rough waters, a nature spectacles at a height of 80 meters. In the Lower Area (Circuito Inferior) we will enjoy the rich wildlife around us, as we go down the flight of steps where we can watch the spectacle offered by this water curtain surrounded by thick vegetation. We will pass by Álvar Núñez Fall, from where we will enjoy the first views of the Devil's Gorge. Following the path, we will find San Martín Island and the homonymous Fall. Finally, at the end of trip we will find Bosetti and Dos Hermanas Falls. We can stay and appreciate this spectacle of waters and get refreshed since the steam from the waves breaking on the rocks will spray us completely.

We will continue our trip, this time in the Upper Area (Circuito Superior), where we will go around the same falls but from a different point of view of the Falls and their surroundings. Besides, we will get close to our next destination, the most stunning, which will guide us through the roaring of the water currents. We will get to the Devil's Gorge's station by train, and start our trip around the islands, and thus, have a wider view of this great nature "mistake" in the middle of the forest created, according to a legend, by the angry God of Iguazú River.

Full Moon (optional in Argentine Falls) We will enjoy this unique trip at night with a full moon, which will allow us to appreciate the sounds and secrets of Misiones forest. We will leave on the Ecologic Train and head for Devil's Gorge Station, where we will capture the first sounds of nature, which creates a magic and mysterious environment. The spectacle offered by the Falls, with the rainbow that appears from the waters with the moon reflection, will completely dazzle us. Besides, once within this overwhelming environment, we will get the movements and sounds of the animals that go for their food. After such a magnificent experience, we will return by train to the travelers' center.

Big Adventure

This activity is an extra walk through the hanging bridges, and with this we will start our adventure in which we will sail up to the Canyon of Iguazú River. Then we will sail for about 2 km along the rapids enjoying a beautiful view from San Martín Island. We will go round the island up to the homonymous fall to enjoy a great deal and get sprayed from a close distance. We will get back on off-road vehicles through the thick forest surrounding the National Park.

Day 3 - Iguazu Falls: Brazil

Here we will have a very beautiful trip through the only hanging bridge of 1 km to enjoy the view of Iguazú Falls from the other side, the Brazilian region. During this trip we can also learn more about the fauna and flora, enjoy a unique landscape of the falls since the area is more open regarding falls because most of them are on the Argentine side and form a water curtain of 2.700 meters wide. So from this side we will be dazzled by the beauty of the Devil's Gorge to the full.

Besides, this place is home to rare wildlife species, some of them in danger of extinction such as giant otters, anteaters, jaguars, red deer and yellow alligators. We will also see native flowers such as orchids, bromelias and thousands of butterflies.

Note: We have to bear in mind that this trip is available only 5 days per month during the full moon; two days before, two days after, and during that period. We have also to take into consideration that the capacity for this activity is limited and, of course, it depends on the weather conditions that day.

Transfer to Domestic Airport (Buenos Aires). End of our services.
