## ARGENTINA TOURS

### **IBERÁ WETLANDS FULL**

*An organized program to get to know Iberá streams and lakes, which is a mythical place surrounded by nature, where we will appreciate environmental care and the importance of the preservation of this unique and delicate fauna in our wild environment.*

## 5 DAYS - 4 NIGHTS

Stay in a Lodge with all the services available and complete to have a closer view of these unique landscapes in Argentine territory. To be able to bring us closer to life in the midst of nature, is certainly an experience that we will be recorded forever, since for 5 days we will be in constant contact with animal and plant life of these magnificent estuaries and lagoons, making varied activities to be able to interpret this ecosystem, which without a doubt, we must take care to keep it running.

- Accommodation Double Room with breakfast, lunch and dinner
- Transfer IN OUT APT/HTL/APT
- Private excursions with guide Spanish English
- Entrance fees to national parks
- Bilingual English Spanish Guide

---

### Day 1 - Posadas, Misiones - Carlos Pellegrini

We will go to Jorge Newbery Airport. We will be welcomed at Posadas Airport and we will head for the lodge.

Once accommodated, we will get ready for lunch. We will have the afternoon free to relax by the swimming pool or do some optional activity in the lodge. We could ride a horse and go along paths or walk to discover animals, plants and trees of different species, apart from watching a wide variety of birds that will accompany us during our stay there. At night, we will have dinner and then we will do our first guided activity: a safari to watch nocturnal fauna and flora, and to be dazzled by the typical sounds of the region such as those coming from the vegetation, marshes and insects. We will watch the stars in the open, weather permitting.

---

### Day 2 - Birdwatching in the Iguazu National Park

Breakfast at the Lodge. On our second day in the Lodge, we will watch birds while doing trekking or riding a horse throughout the day. In this way, we will discover the secrets of the ideal places for birdwatching in the Pampas. We will probably see Paraguayan laces, strange-tailed tyrant, white monjitas, yellow cardinals and, apart from birds, viscachas, giant armadillos and owls, among other species. Birds' sounds and colors will make us have an unforgettable moment in this natural environment. Around midday, we will have the honor of having lunch in the house of a gaucho family, where we will learn about their customs, cattle and sheep raising. Besides, we will also participate in the rural activities and so have a unique experience. We will go on by horse or walking to discover more birds and other animals, as well as plants. Then we will get back to the Lodge and have dinner.

---

### Day 3 - Forest Walking and Fauna Watching

Breakfast at the Lodge. On our third day, we will visit the Interpretation Center, and walk along the forest around us to watch howler monkeys, birds, American brown brockets and capybaras. During this trip, we will be accompanied by the park rangers, experts in Iberá ecosystem.

Then we will have lunch and start our safari trip on a boat along another area of the stream, where we will watch birds and animals such as reptiles, fish and mammals —surrounded by multicolored butterflies. Dawn on the calm waters of Iberá Lagoon is a spectacular view to see.

---

#### Day 4 - Sea Safari along Streams and Lagoons

---

Breakfast at the Lodge. We will get ready to do a sea safari along Iberá streams and lagoons, as well as distant islands, where we will watch the wildlife: alligators, capybaras, river lions, marsh deer and sea birds. We will do this activity at dawn.

At midday, we will have lunch and then we will have the afternoon free to do some activity we like such as cart riding; horse riding through the marshland and woodland; spending the day with gauchos to enjoy their rural stories, watch them ride a horse and lasso some animals; walking around the area or just resting comfortably in our rooms or in the shade of big trees.

---

#### Day 5 - Lodge - Optional activities

---

Breakfast at the Lodge. We will get ready to set out for our next destination. The sound of the birds early in the morning, the views of the region and the varied wildlife will make our stay unforgettable. End of services.
